

VITAFER FORTE

Syrup of Iron & Folic Acid With Vitamin B₁₂

For Therapeutic Use

VITAFER FORTE provides iron in the form of Ferric Ammonium Citrate which is a source of high elemental iron. Besides **VITAFER FORTE** is well-tolerated and hence the side-effects such as constipation, abdominal pain etc, are rare.

VITAFER FORTE also provides Vitamin B₁₂ and folic Acid which are very important hematinic factors. Because of good bio-availability **VITAFER FORTE** leads to a steady rise in haemoglobin and correction of iron deficiency.

FORMULA:

Each 5ml Contains:

Ferric Ammonium Citrate USP (Equivalent to Elemental iron 41mg)	200 mg
Folic Acid BP	1.5 mg
Vitamin B ₁₂ BP	50 mcg
In a Flavoured Sorbitol Base	q.s.

Colour: Caramel

Overages of Vitamins added to compensate for loss in potency during on storage.

- Iron deficiency anaemias is due to chronic blood loss, hook-worm infestation Inadequate intake of Iron etc.
- Anaemia during pregnancy.
- Other nutritional dimorphic anaemias.
- Lack of appetite, run down condition –these are common symptoms of anaemias which might occur initially.

INDICATIONS : Banal or hypo chromic anaemias of whatever origin.

In anaemia there is a reduction in haemoglobin concentration of blood, resulting in reduced oxygen carrying capacity of the blood. It leads to symptoms such as tiredness fatigue, reduction in productivity, inability to concentrate and in severe anaemia, even breathlessness, Pallor of nails, tongue and conjunctiva, is a classical sign of anaemia but it is absent in patients having mild anaemia who report to the doctor non specific symptoms of general weakness. It is important to diagnose anaemia at this stage , and start a specific hematinic therapy, instead of giving non specific vitamins and tonics.

Iron deficiency anaemia is the commonest type of anaemia met within clinical practice . There are many etiological factors, the most important being nutritional deficiency. A diet poor in protein, is likely to be poor in Iron. Hence inadequate protein synthesis and lack of Iron account for this type of anaemia

DOSAGE:

As directed by the physician.

STORAGE:

Store in a cool, dry place. Protect from light.

PRESENTATION:

In bottles of 200ml.

VITAFER FORTE- is an efficient iron tonic with an exquisite flavour.
